

15-16 November 2019

CONFERENCE 2019

etc Venues
1 Drummond Gate
London SW1V 2QQ

Poster Template – How To Use

Handle the template flexible: Change the headings, adjust forms in length or delete them – e. g. "acknowledgements" may not be necessary in many cases, "further information" may not need so much space.

Use your own template as long as you integrate the OPUS conference logos and format in A1 upright.

Hints for the text:

Is my text suitable for a poster?

Do I have a special result to tell?

Are key messages clearly presented and proved?

Are unnecessary details avoided? Do details support the core message?

If not completed projects are presented: Is the central question highlighted and what I want to reach?
